WOODCRAFT

WHO?

We started Nurse Will's Lumber & Woodcraft in the small coastal town of Los Osos, California. There's only a few of us here, but we take this small business seriously. We'll never paint the ceiling of the Sistine Chapel, and our art isn't sitting behind any fancy glass in some museum. What we believe is that ordinary people can create extraordinary things. We don't think social boundaries (like your job) should suppress the ability to express yourself. When Will isn't in the ER saving lives, he's in the shop cutting wood. Friends, family, and neighbors loved his art, so one day he got a few people together and started something bigger.

WHAT?

Our company designs and manufactures a variety of artistic joinery, sculptures, and other wooden trinkets shipped

directly to retail customers from our e-commerce sight. We also provide custom-project services.

Most of our products are made from recycled wood; wooden rings cut out of skateboards and planter boxes fashioned from old railroad ties.

PRODUCTS:

- ✧ Bottle Cap Coasters
- ✧ Skateboard Deck Rings
- ✧ Planter Boxes
- ✧ Baskets
- ✧ Sculptures
- ✧ Joinery
- ✧ Custom Projects
- ✧ Semi-Functional Boomerangs
- ✧ And much more!
